CHAVDA INFRA
SINCE 1990

Chavda Infra Limited

COMPANY PROFILE

www.chavdainfra.com |

ABOUT US

35 YEARS

LEGACY OF BUILDING LANDMARKS IN GUJARAT.

Since 1990, we have been building on this pioneering role in construction under the name Chavda Infra Pvt. Ltd. A solid number of contracts with numerous large-scale construction & industrial projects helped us in displaying our skills and beyond. We introduced future tech concepts in construction materials & methods earlier than others and we are continuously expanding our business in a solution-oriented manner by adding special divisions such as environmental engineering.

Our Vision

To lead the construction industry through excellence, integrity, and innovation, setting new benchmarks in quality and speed. We embrace advanced technologies and ethical practices to build lasting trust, confidence, and a prosperous future.

OUR BUSINESS APPROACH

Chavda group functions on variety of moral principles which are grounded in the organization from the beginning. Our working operation structure is more likely to be inclined towards Quality Management and Speedline of project completion. With such concrete business structure, we have established chain of ever-lasting infrastructures in Gujarat. The roots of the company and operation structure made the Chavda Group a valued and well-known Construction Group of India.

FOUNDER

"Architecture should speak of its time and place, but yearn for timelessness. We're all about leaving behind a rich legacy of quality construction"

Mr. Mahesh Chavda

(MD & Chairman)

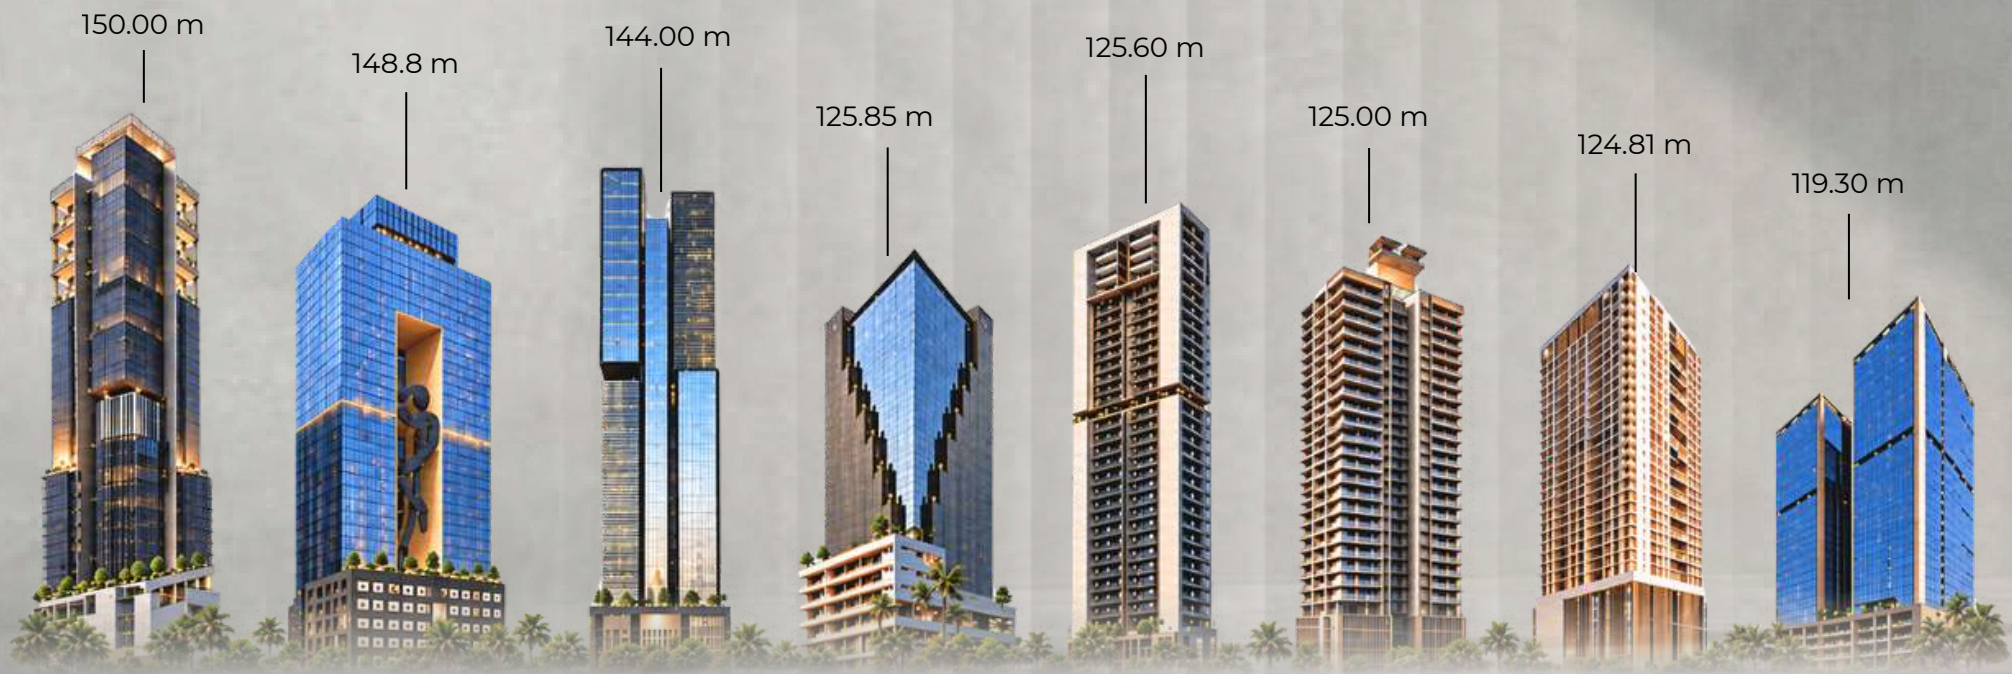

Being the Chairman and Managing Director of Chavda Infra since 1990, he had the privilege of being a part of the remarkable growth of Gujarat's construction industry. With his guidance, the company has evolved into a powerhouse in the industry today.

Our Skyscrapers

08 skyscrapers

each defined by its own architectural identity and rising gracefully to heights ranging from 119.30 m to an impressive 150.00 m.

- **Nirma Corporate House** by Nirma Ltd
- **Wynn** by A.shridhar Group
- **Mondeal One** by H N Safal
- **Trogon Twin Towers** by Radharth Group
- **The Park** by H N Safal
- **The 31st** by Beverly Buildcon
- **La Marque** by Lilamani Group
- **The Identity** by Rashmi & Dobariya

ONGOING PROJECTS

Our ongoing projects reflect our commitment to quality, innovation, and timely execution. From advanced construction systems to landmark developments, we continue to build with precision, safety, and excellence.

CUTTING EDGE TECHNOLOGY

We embrace cutting-edge technology to deliver greater precision, safety, and speed across every project. From advanced formwork systems and dedicated placing booms to edge protection systems, our technology-driven approach streamlines execution. By integrating modern construction solutions with proven expertise, we build smarter, safer, and more efficiently.

Formwork Technology

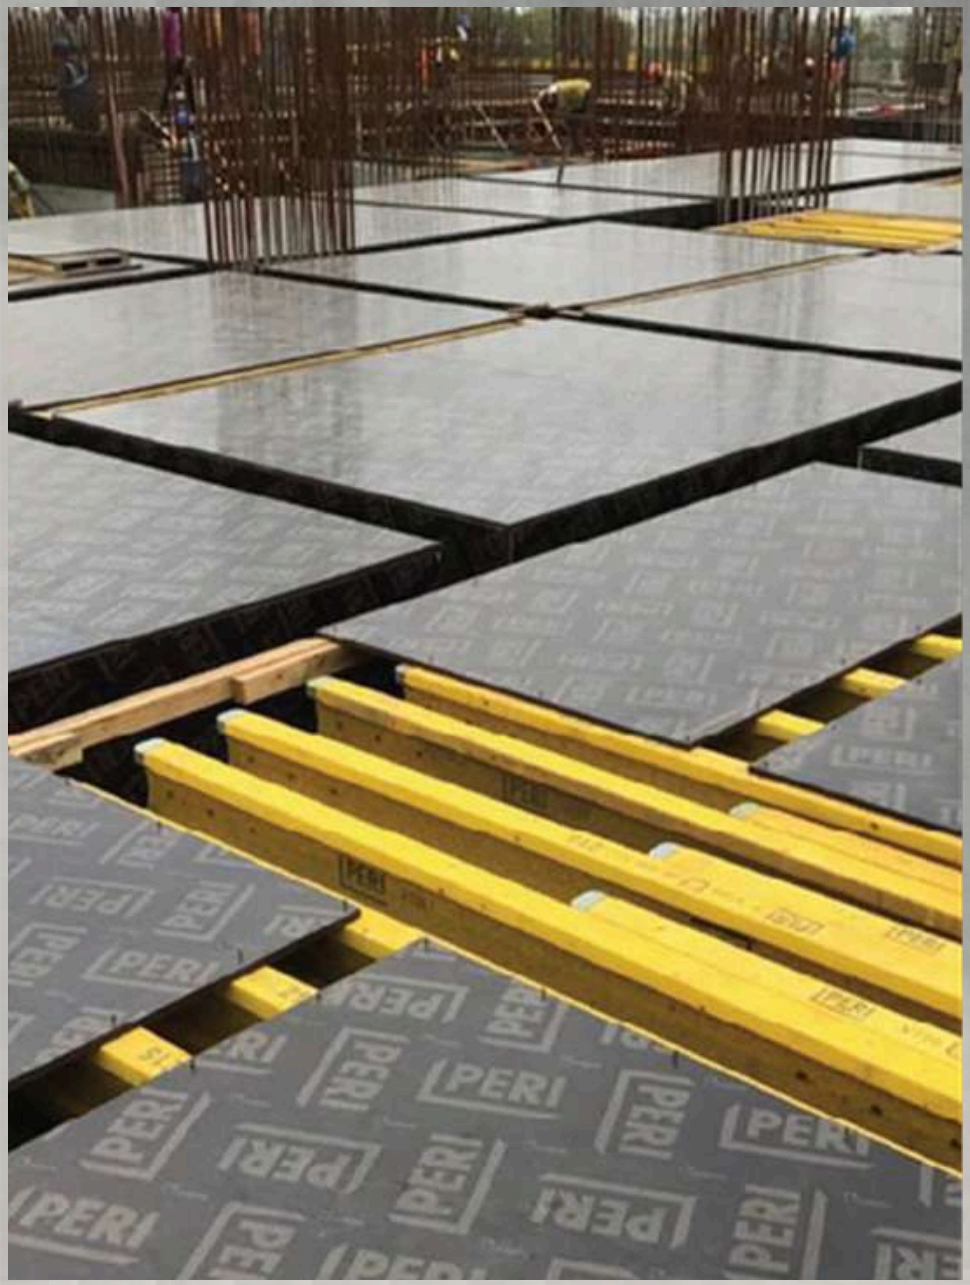

Our advanced formwork systems - including Multiflex, Gridflex, Standard Belex, Dokaflex Floor-Slab, PERI UP, Aluminium, Alsina, and Skydeck - enable faster and more precise construction.

These systems enhance structural accuracy, improve site efficiency, and deliver consistent quality across every project.

Edge Protection System

Our advanced edge protection systems enhance on-site safety by securing exposed edges and creating a safer working environment at every height.

SPB 35 Separate Placing Boom

SPB 35 delivers precise, high-reach concrete placement, enabling faster, safer, and more efficient execution on complex construction sites.

HEALTH & SAFETY

We are well known in the industry for our high standards & our uncompromising attitude towards the Safety & Hygiene Norms. We always make sure that our team of laborers & engineers are fully equipped with all kinds of necessary safety & hygiene gears. We also make sure to educate & aware our team of the benefits through many mediums. We believe that following safety brings first aid to the uninjured.

CORPORATE SOCIAL RESPONSIBILITY

Driven by a sense of responsibility, we actively support initiatives that promote community well-being, learning, and sustainability, reflecting our commitment to creating a positive impact beyond construction.

COMPANY'S SOCIAL ENGAGEMENT

We Believe that an active participation in social activities and constant get-togethers brings our gratitudeness alive. We as a company believe in empowering core human values in our organisational culture and active social involvement for the growth of our nation.

AVDA

Geographical Presence

Chavda Infra's geographical footprint is firmly anchored in Gujarat, one of India's fastest-growing economic hubs and a leader in infrastructure development. With its operational headquarters in Ahmedabad and projects across Gandhinagar, GIFT City, Rajkot, and Baroda, the company has developed a deep understanding of local markets, regulations, and stakeholder expectations. This regional expertise enables agile execution, strong partnerships, and reliable delivery across residential, commercial, industrial, and institutional developments.

Strong Customer Relationships

75+ Clients across Gujarat.

Projects awarded primarily through nomination are a direct reflection of client trust and construction quality.
